

**Keep Moisture From Watering Down Your Productivity**

**aggreko<sup>®</sup>**

15600 John F. Kennedy Blvd.  
Suite 200  
Houston, TX 77032-2343

## Aggreko can help control the impact of moisture and humidity on your business operations.

- Improve productivity
  - Decrease duration of painting or coating operations
  - Reduce drying time for concrete
  - Sustain comfortable working conditions
- Maintain your controlled environment
  - Control dew points regardless of seasonal changes
  - Stabilize food production conditions or preserve products during storage
  - Minimize corrosion
  - Eliminate dampness from condensation

### There When You Need Us

Our network of local service centers, 24/7/365 emergency availability, and disciplined approach to maintenance ensures we're always there with the services and equipment you need, when you need them. For dehumidification, temperature control or compressed-air, our expertise and specially designed fleet will keep your critical processes running, day or night.

**Aggreko: Your rental solution for power generation, temperature control and oil-free compressed air.**
