

Power Rental Solutions

Powerful Capabilities

At Aggreko, our ability to develop rental energy solutions is unrivaled. With unequaled power expertise in a variety of industries, our people can solve any challenge—no matter where, no matter when. From providing power to 40,000 residents battling a winter storm to operating over 100 MW of power for the Winter Olympics and much more, we have the experience, skill and specialized fleet of equipment to get the job done right, right now. Aggreko minimizes risk, solves operational issues, and maximizes opportunities to help you increase your profit margin.

High Performance Equipment

Distribution

Designed with wheels, forklift pockets and lifting eyes for easy transportation, this line of distribution equipment includes panels from 100 to 3,000amps, 2,000 and 3,000amp switchboards and transformers from 75 to 300kVA. All are UL-listed and NEMA 3R rated.

Load Banks

Available in individual weather-proof sizes from 100kW to 5 MW. The 100 to 400kW units are compact, portable and able to fit through standard door frames. Up to five units can be linked together and operated from one control panel.

TwinPack Uninterruptible Power

These units combine and synchronize two generators ranging in size from 100 to 350kW, to provide fully redundant backup power—online at all times.

GreenPower®

GreenPower® generators range in size from 30 to 300kW and incorporate new advances in spill containment, silencing and emissions.

SuperHush Towable Movie Units

The towable movie unit boasts an operating sound level of less than 48dB at 50 feet, variable AC and DC operation, as well as extreme speed and voltage precision.

EnviroTANK

Double-walled, 600, 1,100, 2,300 and 5,000-gallon fuel tanks virtually remove the possibility of an internal fuel spill, even if the unit is turned over.

CargoPower

Reefer power-pack units offer 30- and 40-plug capabilities, housed in a standard 20-foot ISO container.

TowerPower®

Ranging in size from 15 to 50kW, these units are capable of running 10 to 14 days without refueling and are skid-mounted to protect against theft.

Container Power

Container generators are available in individual sizes from 500kW to 2 MW and offer unique synchronizing and load-sharing capabilities.

Power Accessories - Switchgear, Cable, Central Control Rooms

For over four decades, Aggreko has provided rental energy solutions that go above and beyond industry standards. We bring a world of experience to each and every job, led by people with unequaled expertise within the industries we serve. Through innovation and a commitment to continuously developing new solutions and enhancing service options, we ensure a higher level of performance. And, with 50 locations in North America and 120 locations worldwide, our 24/7/365 service is available where you are.
